

SU receives \$51 million from Ehrlich

By Matt Walenciak

Ehrlich revealed his 2007 Fiscal Year capital budget. Out of his \$1.45 billion budget, Ehrlich plans to split it up between education, public safety, the health of the Chesapeake Bay, tourism and healthcare across the state. \$530 million is dedicated for education and out of that Salisbury will get over \$51 million for two new major campus buildings; the Perdue School of Business building.

The TETC received \$49.6 million in construction funds and was the largest funding proposal from the capital budget. Ground breaking for the new "signature building" is slated for October 2006 and project administrators hope to see the doors open in the spring of 2009.

The TETC will be composed of two separate buildings where there will be classrooms and offices for the Seidel school of Education, the Fulton School of Liberal Arts and a state-of-the-art broadcast studio for television and radio broadcasting. The TETC will also have computer labs, tutoring labs, conference rooms

and a small food court. The Perdue School of Business www.dbm.maryland.gov.

will benefit from the remainder of the \$51 billion dollar award, receiv-Last week Governor Robert ing \$1.7 million in planning money. According to The President's Office, the money is "part of a five-year, \$33 million funding commitment from the State of Maryland.'

Salisbury and Towson Universities are now considered the two "growth institutions" within the University System of Maryland. This means that out of the 13 collegiate schools in Maryland, the two Teacher Education and Technology are willing to accept more students if Complex (TETC) and the new they are given more money. Salisbury will receive a 15 percent increase in state funds to expand budgets for faculty, support staff and operating costs. In the last year, freshman enrollment has increased by 8.5 percent and Salisbury is planning to take on an additional 323 students in the next year. "The new budget ensures that Salisbury University will remain accessible and affordable to Maryland students" said President Janet Dudley-

The final vote for the 2007 Fiscal Year Budget is scheduled to take place on April 13. For more information on the proposed budget, visit the Maryland Department of Budget and Management at

Growing safety concerns cancel Field Day 2006

Above: An enthusiastic crowd of students rocked out at Field Day 2005. Below: The desolate field where Field Day 2006 would have taken place

Laura Emmons/The Flyer

By Meredith Maguire Staff Writer

Salisbury University has canceled its 14th annual Field Day celebration in response to community concern that student safety could not be secured. "Underage drinking, the burning of a couch, a wet t-shirt contest and students on the roofs of buildings were just some of the unsafe behaviors that were brought to our attention last Field Day," said Director of Student Activities Heather Holmes

At the beginning of the fall 2005 semester University President, Janet Dudley-Eshbach, asked the Town-Gown Council, a group of SU students, faculty, staff, alumni and community members, to make a recommendation on whether Field Day should continue. "The committee voted against it because of the safety issue and also the destruction in the neighborhoods," said Vice President of Student Affairs Dr. Ellen Neufeldt. Noise, alcohol use, litter, and traffic problems were among some of the communities concerns said Holmes.

Although Field Day has not been canceled indefinitely, Field Day 2006 and all outdoor concerts have been canceled. The decision has left many students agitated. "It's disconcerting. Every great University has its traditions that the students look forward to every year. Ours is Field Day; and it's wrong of the university to take that away," said junior Kyle Stokker.

No alternate activities are being planned to replace Field Day, but Holmes said there will be many activities for students throughout the semester. Also, both Neufeldt and Holmes hope to hear suggestions from students on how Field Day can be brought back safely. "My hope is that through student leadership we can host a positive event that doesn't endanger the lives of our students," said Neufeldt.

SUPD gets tough on parking

By Jodie Lehrer

Staff Writer Salisbury University Police have begun issuing written warnings in the Henson Science Hall parking lot for failure to obey traffic control devices. A new traffic pattern was recently introduced to the parking area between Maggs Gymnasium and Henson Science Building, but University Police officials report that few drivers heed the new change. Currently, the written warnings do not carry a fine; University police officials caution students, faculty and staff that it will not be long before the department will impose fines for parking violations.

"There is a change in traffic," said University Police Lieutenant Mike

2005 semester, university police designated a "One-Way" lane in order for university shuttles to safely turn around without causing accidents with cars. "That's our main priority, to keep campus safe," said Nicolas.

"I noticed the 'Do-Not-Enter' signs right away," said Salisbury junior Nichole Fuqua.

There are now arrows on the pavement, along with posted "One-Way" signs in the newly designated lane to demonstrate the correct direction of traffic. There is also a "Do Not Enter" sign on the exit end of the lane to prevent cars from entering the wrong side.

University police have not yet begun to issue tickets, just written

Nicolas. Towards the end of the fall warnings. "We're willing to work with the students because it's new," said Nicolas. "It's only fair."

> Within a couple of weeks, university police will begin to issue Maryland state citations for failure to obey traffic control devices. The fine for the parking infraction is

Students, faculty and staff are urged to cooperate with the University police and university shuttle drivers to help minimize parking lot hazards. "It's a good idea and not really an inconvenience," said Fuqua. "If it's going to prevent accidents, then why not?'

A student fails to acknowledge the newly posted traffic sign; shortly afterwards, a University Police officer addressed the situation.

Story Brief -

Pashion for Fashion storms SU

Crowds filled the seats of the Holloway Hall auditorium on Saturday night to see dancing, stomping and most of all, beautiful men and women strutting across the stage, adorned in the latest fashions. Salisbury University's Pashion for Fashion Models, Inc. and the "Almighty Alpha Mu" Chapter of Phi Beta Sigma at UMES sponsored the fashion show entitled "Fashion in the Fast Lane," a collaboration between the two neighboring universities that has never been done before. Vice president of Pashion for Fashion Chezia Cager says that this event is an important one because it exposes the SU community to Black Greek life and the UMES community to SU.

Spring 2006 Call-A-Gull Phonathon The primary responsibility of this job is to call Alumni to ask for contributions. This requires applicants to be courteous, professional and to serve as "Salisbury University Ambassadors." Applicants MUST feel comfortable making telephone calls to people requesting donations to Salisbury University. No experience is necessary. A paid training will be given and is required. Bonuses will be implemented. If you have questions, call the Alumni Office

AFRICAN-AMERICAN HISTORY LECTURES

ext.36042

Small lectures at African-American Brown History professor Dr. Clara Small inaugurates SU's African-American History Month celebration with the semester's first Brown Bag Lunch Discussion noon Tuesday, February 7, in the University Gallery of Fulton Hall. Small speaks on "Manumitted Slaves from the Eastern Shore Who Served in the Civil War," highlighting the role of freed slaves in a conflict largely defined by slavery. Sponsored by the Charles R. and Martha N. Fulton School of Liberal Arts, the talk is free and the public is invited. Soft drinks and light refreshments will be served.

FIELD DAY

Stokker said college students are old enough to take care of themselves and that people of age should have the sense to get themselves out of dangerous situations.

There has been some discussion as to moving Field Day back to Shore Birds Stadium, but officials said that no event can be planned if the safety of the students is still in jeopardy. "Before any steps can be taken to bring Field Day back, I think we have to change the rampant culture of student drinking that surrounds this event," said

Student Athlete Spotlight.

It's not how you start, but how you finish

They say it is not how you start but how you finish. Justin Rice, the Salisbury men's basketball sixth man, has taken this idea to heart and carved out a niche as one of the most productive players on the team despite not starting in any of the Gulls 20 games this season. As the first man off of the bench this season, the senior business management major has averaged 9.3 points per game, which is third on the team. He is also third on the team in three point percentage at 37 percent, minutes at 24.9 per game, and assists at 33 total. He leads the team with 31 3-pointers made and a 79 free throw percentage. This fourth-year senior is undoubtedly one of the top players on the 11-9 Gulls, yet he has readily accepted and thrived in his role off of the bench. Rice was kind enough to take some time out of his schedule and sit down for an interview during the team's final regular season push that includes five conference games before the CAC tournament.

What is your specific role on the team?

My role is to come off the bench and be a spark. I need to be a leader on the floor.

Other than this last week we have been playing really well. We have been playing together well, and we that up, we should have a shot at senior season?

Know someone that you think deserves a student spotlight?

Nominate them by sending an email and a brief summary of why they should be chosen to flyer@salisbury.edu or flyersports@salisbury.edu

Lady Gulls stomp Gallaudet in CAC game

Staff Writer

Gallaudet came to Salisbury Wednesday night winless both on the road and in Capital Athletic Conference (CAC) play and only had six players dressed in uniform. Despite Gallaudet's disadvantage, Salisbury women's basketball wouldn't take them lightly as they shot and killed the Bison 65-41.

*The victory is a big one for the Sea Gulls (12-7, 5-4) as they ended their three game losing-streak in CAC play and pushed their conference record back above .500.

"We're 5-4, back to winning and the object is to win the conference games," said coach Bridget Benshetler.

Salisbury took control from the beginning of the game jumping out to an early 14-2 lead. Gallaudet cut the lead to 17-8 but that's as close as they would as the Sea Gulls continued to add on to the lead.

The Salisbury offense struggled for the majority of the first half with turnovers and easy missed shots. However, they caught fire in the three minute span between the 6:12 and 3:12 mark with a 12-2 run to get the lead up to 35-14.

After coming out of the locker room with a 36-17 half-time lead, Salisbury was pretty relaxed as they stayed in cruise control. All the Gulls did in the second half was nurse the lead they built up in the first half by trading baskets with the Bison until the final buzzer blew.

"We pressed out in the beginning, took a lead and we took a two zone press," said Benshetler.

Salisbury's defense proved to be a key factor to being victorious. The defense held the Gallaudet to 17 first half points, out-rebounding the Bison 62-39 while holding them to a shooting percentage of 32.1%. Even the offense played good defense, grabbing 33 offensive boards which lead to 21 second chance points.

We knew we wanted to play good defense because Gallaudet is a hard team," said freshman guard Lindsay and two steals on defense. Martin, who had seven rebounds "Whenever you play good defense it

pumps up the team and when you play good defense it makes the game

The bench also was vital to Salisbury's success. The bench was responsible for 42 of the Sea Gulls' 65 points. Junior guard Kate MacFarland contributed 11 points off the bench to co-lead the team in scoring with sophomore forward Kat Kordal. Other key scores off the bench were sophomore guard Monica Merkel with nine and freshman forward Marissa Manzo with

'We play a lot of people so you really can't count on five people," said MacFarland. "Coming off the bench our role is to spark and play well and get a win."

The Sea Gulls made the victory look easy but it wasn't a cakewalk as they played without senior guard Christen Barney who was out to illness, and they lost Merkel late in the second half due to an ankle injury.

Mainly, Gallaudet wouldn't give up despite the game being mathematically over. The six exhausted Bison players fought hard until the final buzzer when senior forward Jessica Karmgrad made a 3-pointer to end the game.

"I have a lot of respect for Gallaudet they always play hard and never give up," said Benshetler.

The Salisbury men's basketball team was unable to avoid being swept by conference foe Gallaudet University last Wednesday, losing 71-50 inside of Maggs gym. The Gulls got the short end of the stick in almost every major category, losing the rebounding battle, 19-15, points in the paint, 16-6, second chance points, 16-8, and points from the bench, 20-19. The loss drops the Gulls into fifth place in the Capital Athletic Conference at 5-4, with an overall record of 11-9 on the season.

The two teams battled back and forth throughout the first half, with four ties and seven lead changes. The Gulls held a six point advantage wice in the opening 20 minutes of play, but went into the half down by five. The game remained contested for the first eight minutes of the second half until the Bison seized control with a 10-0 run to go ahead 47-37 with 11:35 left in the game. Salisbury able to make a run once more cutting the lead to five, but it was short lived as the Bison surged ahead to go up by 14 and never looked back.

Segun Odumeru set the tone for the Gulls scoring 15 points and pulling down four rebounds; Ray Williams deposited 10 points along with three rebounds and three assists. Gary Ward made a strong contribution off the bench scoring nine points with four rebounds and an assist.

Although the Sea Gulls only trailed 32-27 at the half, the Bison proved to be too much in the second half. Gallaudet shot 12-of-27 (44.4 percent) from the field in the second half while the Gulls only shot 27.6 percent from the field making only 8-of-29 baskets. Gallaudet was led by Robert Haney, Jr., scoring 18 points and securing eight rebounds, and Jon Mowl who added 17 points and five boards. Frank Jackson pulled down eight rebounds while scoring 13 points, and Luther Weedon came off the bench to score nine points.

Salisbury's next home game is Saturday, February 11th in the Alumni Game against the University of Mary Washington at 7:30 in Maggs Gym.
